DETAILED ACTION
WITHDRAWN OBJECTIONS

1. The objections to Claim 21, of record on page 2 of the previous Action, are withdrawn.

REPEATED REJECTIONS

2. The 35 U.S.C. 102(b) rejection of Claims 1 – 4, 6 – 13 and 17 – 23 as being anticipated by Gehrke et al (U.S. Patent No. 5,874,155), of record on page 2 of the previous Action, is repeated.

3. The 35 U.S.C. 103(a) rejection of Claim 5 as being unpatentable over Gehrke et al (U.S. Patent No. 5,874,155), of record on page 3 of the previous Action, is repeated.

4. The 35 U.S.C. 103(a) rejection of Claims 14 – 16 and 24 – 67 as being unpatentable over Gehrke et al (U.S. Patent No. 5,874,155) in view of Gehrke (U.S. Patent No. 5,783,266), of record on page 4 of the previous Action, is repeated.

ANSWERS TO APPLICANT'S ARGUMENTS

5. Applicant's arguments regarding the 35 U.S.C. 102(b) rejection of Claims 1 – 4, 6 – 13 and 17 – 23 as being anticipated by Gehrke et al (U.S. Patent No. 5,874,155), 35 U.S.C. 103(a) rejection of Claim 5 as being unpatentable over Gehrke et al (U.S. Patent No. 5,874,155), and 35 U.S.C. 103(a) rejection of Claims 14 – 16 and 24 – 67 as being unpatentable over Gehrke et al (U.S. Patent No. 5,874,155) in view of Gehrke (U.S. Patent No. 5,783,266), of record in the

Art Unit: 1772

previous Action, have been carefully considered but have not been found to be persuasive for the reasons set forth below.

Applicant argues, on page 12 of the remarks dated January 3, 2006, that Gehrke et al's use of the term 'roughening' does not equate to 'scoring.'

However, as stated on page 2 of the previous Action, Gehrke et al disclose the roughening of the surface by the formation of cuts on the surface, therefore by scoring the surface to form the cuts.

Applicant also argues, on page 13, that Gehrke et al do not disclose the distinct elements of surface roughening and a score line.

However, as stated on page 2 of the previous Action, Gehrke et al disclose two film layers comprising roughened areas which are formed by the formation of cuts on the surface, therefore by scoring the surface to form the cuts; Gehrke et al therefore disclose the distinct elements of surface roughening and a score line.

Applicant also argues, on page 14, that Gehrke et al disclose laser scoring in column 4, lines 53 – 57, but do not disclose a combination of scoring and roughening.

However, Gehrke et al do not disclose laser scoring in column 4, lines 53 – 57; furthermore, as stated above, Gehrke et al disclose the roughening of the surface by the formation of cuts on the surface, therefore by scoring the surface to form the cuts.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
